May 27, 2014

To Whom it May Concern,

I have known Bill Pelham for more than thirty years, since we were both in the golf business.

I had recently left my position at Columbia Lakes Country Club in West Columbia, Texas when Bill approached me about a potential refund on our electricity bill. I had never heard of such a possibility and was naturally dubious, but decided I had nothing to lose and everything to gain by having him look into it.

Bill did a simple review of our billing and found errors being made by our provider. He asked if he could pursue the refund for us. We agreed upon a contract, signed an LOA, and Bill went to work.

In a matter of three months, Bill was able to acquire a refund for our company, Stallion Creek, LLC that was quite substantial.

What impressed us the most was the fact that the electricity company tried to end the process prematurely and refund half of what we were legally due, but Bill persisted in getting the rest. Although it took him nearly six months to fully complete the refund, we were ecstatic with the results and impressed by his tenacity.

We highly recommend Bill, and Doubleagle Consulting to anyone who is considering their services. He certainly did a great job for us.

Sincerely,

Bob Putt
